

# Open On Demand Setup

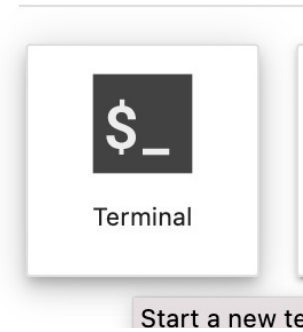

- Number of CPU Cores 1 → **2**
- Total Memory 4 → **8**
- Like before use the interactive app:
  - Jupyter Notebook (python3/Tensorflow/PyTorch) [2021-10-21]
- Update git like before

# Grab The Latest from Github!

## 1. In Jupyter Click New Launcher

## 2. Click Terminal

## 3. In Terminal type

```
cd DNNWS_2022/  
git pull
```

```
(base) [jsearcy@n225 ~]$ cd DNNWS_2022/  
(base) [jsearcy@n225 DNNWS_2022]$ git pull
```

If this command fails. you may have already modified today's notebook. Save your work by moving it to a new file (mv file.ipynb new\_file.ipynb) and try git pull again.
