# Grab The Latest from Github!

1. In Jupyter Click New Launcher

2. Click Terminal

3. In Terminal type

cd DNNWS_2022/
git pull

```
(base) [jsearcy@n225 ~]$ cd DNNWS_2022/
(base) [jsearcy@n225 DNNWS_2022]$ git pull
```

If this command fails. you may have already modified today's notebook. Save your work by moving it to a new file (mv file.ipynb new_file.ipynb) and try git pull again.
